M15 M16	3-4

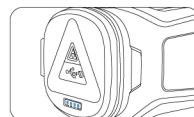

WARNING:

Dear valued customer, thank you very much for purchasing this product! Please Properly read and understand this manual before using this product.

1. Some Floodlight use 18650 batteries for power supply. Please install the batteries in the correct direction ("+" means positive and "-" means negative).
2. The product is equipped with an indicator light. When charging, the indicator light is red, and when it is fully charged, the indicator light is green/blue. When the battery is low, the indicator light will flash red.

• Charging

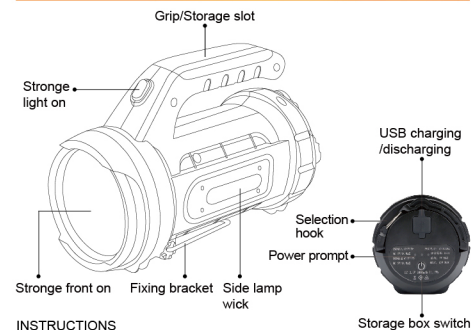

• Full Charged

1.1 USB charging instruction chart

3. Do not shine directly in eyes. Powerful LED light can damage eyesight immediately.
4. Only use provided battery charger for charging.
5. If the battery isn't used for a very long time, please recharge and discharge it every 3 months to keep the battery in good condition.
6. It's normal that the headlight will get a little hot when it is used for a long time.
7. Please recharge the battery as soon as possible when indicator light shows low power.
8. Please keep the battery away from water, moisture and drop etc.
9. To avoid any damage to headlamp's surface, please don't constantly expose headlamp to sunlight, water, chemicals, corrosive gases or any other oxidizing environments.
10. All product parameters provided in this manual are our laboratory data, for reference only, and there is no actual way to use it.
11. As our series of products will be continuously upgraded, this manual can still be applied to the subsequent series of products.
